

TEXAS HOLD'EM STUD POKER

GAMING GUIDE

The objective of **Texas Hold'em** is to beat the dealer's hand by making the best five-card poker hand using your two cards ('Hole Card') and up to five 'Community Cards' (or play the board). You can also bet on our 'Progressive Jackpot'.

HERE'S HOW TO PLAY

- The Texas Hold'em system allows multiple credit betting and dealer hand bets. Players can participate in the auxiliary game by placing a side bet on their own hand and/or on the dealer's hand. If the player's hand matches one of the winning cards or hands on the side bet payout chart, he wins.
- Place your ante wager. This will determine your minimum and maximum bets throughout the hand.
- Place your bonus or 'Progressive Jackpot' bet. This is an optional bet which gives you a strong starting hand and the chance to win a share of the Progressive Jackpot.

- A 4th Community Card (Turn Card) will be dealt face-up. Likewise, you can 'Check' or 'Bet' (same amount as ante) on the 'River'.
- A 5th Community Card ('River Card') will be dealt face-up. Two cards are then dealt face-up to the dealer's hand. If you make a better five-card poker hand than the dealer, you will be paid even money on your 'Flop', 'Turn' and 'River' wagers. If you win on a straight or better, you will be paid even money on your ante. If not, the ante is a push.
- 'Bonus Bet' is paid when the player's Hole Card matches the posted pay table. The maximum payout is subject to the table limit.
- 'Progressive Jackpot' is won on a combination of the player's/dealer's first or second Hole Cards with any Community Cards, or using only Community Cards, and is paid on the four of a
