

GAMING GUIDE

If you like fast action, this game is definitely for you! Casino War is without a doubt the easiest and the most exciting card game to play in the casino.

HERE'S HOW TO PLAY

- After all players have made a wager, each player and the dealer shall receive one card.
- Each player's card shall be compared with the dealer's card.
- If your card is higher than the dealer's card then you will win even money. If the dealer's card is higher, then you will lose.
- If both you and the dealer receive the same card it's a 'Tie' and you have two choices:
 1. Surrender and forfeit half of the bet or
 2. Go to 'War'.
- If you decide to go to War, then you must place an additional bet which is equivalent to your original bet. The dealer will also place the same amount next to yours.

- Now the second card is dealt to you and the dealer. If your second card beats the dealer's second card, then you win. The original wager will be a push. If the dealer's second card beats your second card, then you will lose both the bets.
- During the War, if the game results in a Tie then you will win 'Super Bonus' which will be paid 2-1 to the raise bet. The original wager will be a push.
- There is an optional bet called Tie which has to be placed before the first card is dealt and will win 10 to 1 if your 1st card matches with the dealer's 1st card.
